

RoboCup Junior China Open

Competition Instructions

1. General Rules:

- (1) Participants are permitted to use their own computers during the competition.
- (2) In all Leagues(OnStage, Soccer and Rescue), participants are only required to compete in the on-site competition and exempt from all other components (e.g., written tests, documents submissions, etc.). Similarly, only the scores from the on-site competition will be counted towards the total score.
- (3) Robots must be brought into the field in disassembled components, with the following requirements:
 - The robot controller, battery pack, and wheels must be separate.
 - All programs on the robot controller must be cleared.
 - All accessories and tools must be brought. However, storage devices (e.g., mobile phones, USB drives) are strictly prohibited.
 - During the competition, robots are prohibited from being removed from the field.

Rescue Maze

1. Removal of **letter** victims.
2. Simplification of victim scoring: Points for identifying victims are adjusted to **10 points per victim**.
3. Removal of **speed bumps, obstacles** and **stairs**.
4. Removal of **team posters** and **technical description video** submissions.

5. Removal of **Bill of Materials (BOM)** requirement.
6. Removal of **blue** tiles.

Except for Rescue Maze, the rules for Mini Rescue Basic and Mini Rescue Advance have been explicitly listed separately. All other rules follow the official RoboCup Junior regulations.
